

PRODUCT CATALOGUE

SOLAR-ELECTRICAL-SMART-SIGNALS

TRAFFIC MANAGEMENT SYSTEMS

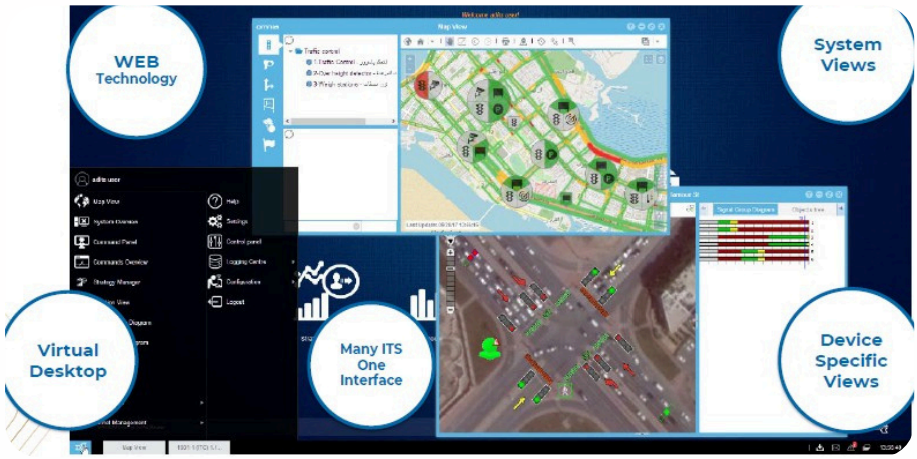

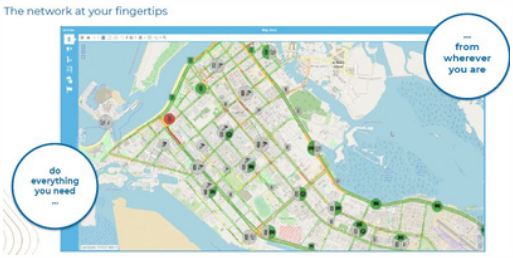

Our traffic management system are not comparable to state of the art systems, which gives full central traffic management GUI eith incidents, devices, dashboards CCTV, VMS and integrates with ITC controller and other real intelligent controllers. Through these systems like

- SCATS,
- SCOOT,
- Yunex,
- Omnia,
- Yunex,
- Kapsch

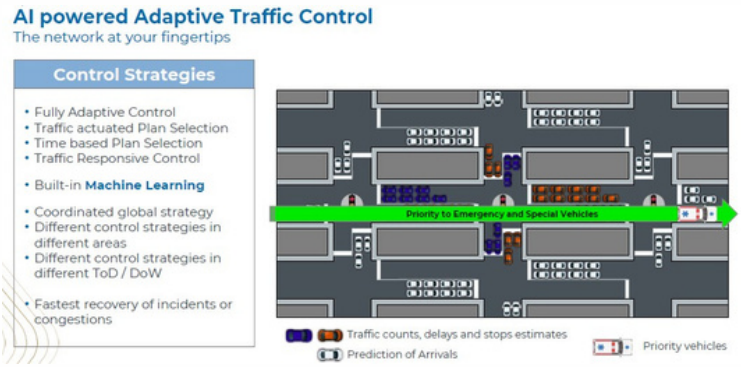

Our systems are able to do city-wide coordination for the whole city, enabling smart intersection, smart corridor, and smart plan.

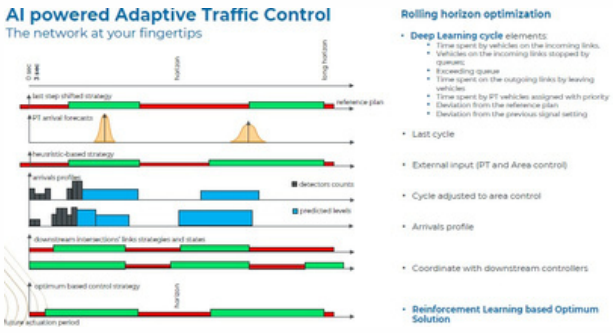

INTEGRATED GUI

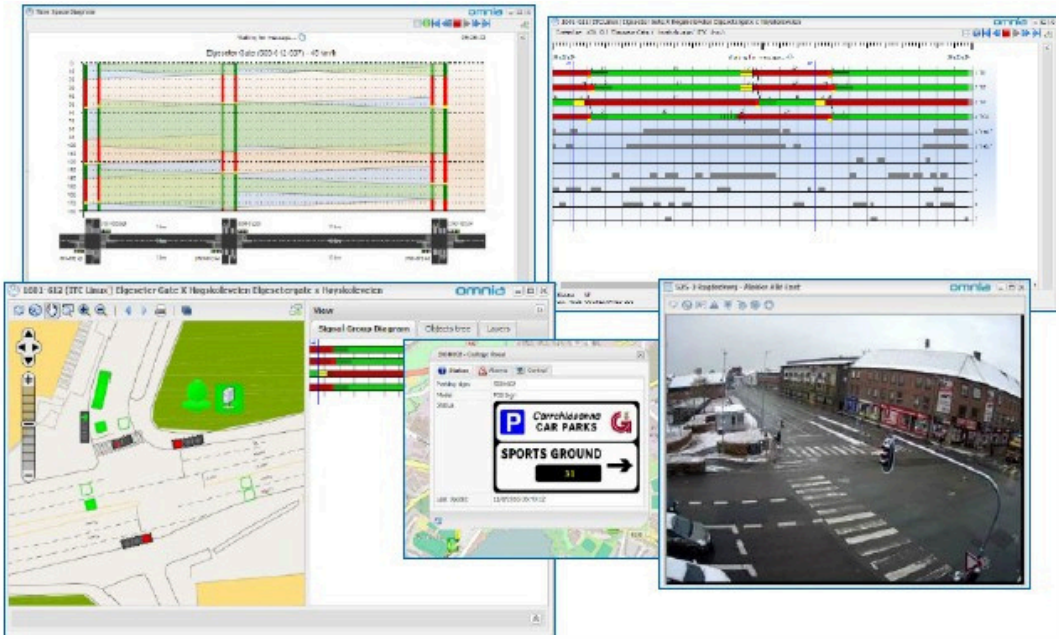

AI POWERED ADAPTIVE CONTROL

AI POWERED ADAPTIVE CONTROL

- Diagnostic Monitoring
- Operations Monitoring
- Real-time Monitoring
- Traffic Monitoring
- Operations Control

REPORTING

BENEFITS

Leading Edge Algorithms

- **Investment**: Solid base for connected and automated future
- **Costs**: Reduced engineering/planning efforts in advance
- **Safety**: Fast reaction to incidents/unforeseen events
- **Environment**: Reduced carbon footprint

Quality and Robustness

- High system **availability**
- High system **performance**
- High **fault tolerance**
- **Communication** availability
- **Detectors** availability

Unique Selling Points

- Real-time **predictive** capacity optimization
- Considers all **modes** of transport
- **Model** based
- **AI powered Rolling** horizon
- **V2X** ready: traffic light assistant natively supported

Flexible solution architecture

- Weighted **priority** for PT and Special vehicles
- **Hardware** manufacturer **agnostic** (40+ TLC)
- **Multimodal** support
- **Distributed** intelligence over Hierarchical and **Open** architecture
- **Scalability** (from small to large systems)

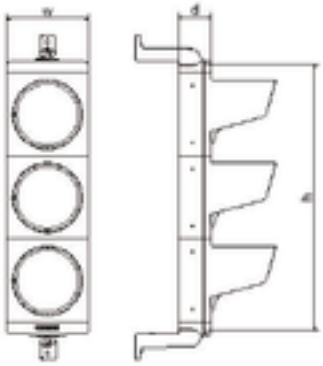

Assess

- Travel time reduction by 10-25%
- Delay reduction by 15-35%
- Stops reduction by 10-30%
- Public Transport travel time reduction by 28%
- Fuel consumption reduction by 8-10%

Open Communication Protocol

How we integrate, how we are integrated

OPEN API's	Not a "black box", scalable, XML, JSON, etc.
STATE OF THE ART TECHNOLOGY	Restful API (Social Media Technology)
RICH SECURITY FEATURE	OAuth Authorisation Authentication
PROVEN INTEGRATION	Integration with many systems, worldwide: E.g. Implemented in Kuwait, Uruguay, Italy E.g. Bosch, Milestone, Wavetronix, Genetec, Telegra

SIGNAL HEADS

Modern LED signal with more than 15 year lifespan. They suitable for cities, tollgate, and similar applications. The sizes are 100mm, 200mm, and 300mm. A special size is a combination of 300mm+ 200mm with inbuilt counter.

Material: UV-stabilized poly-carbonate

Dimension: 100 , 200, 300mm; and combination

LED Colors: Red Yellow Green

LED RG PEDESTRIAN

High efficient RG signal head featuring 200 mm RG with countdown timer. It is designed to meet high standards of efficiency and durability.

Material: UV-stabilized poly carbonate to withstand mechanical stress and adverse weather.

Dimension: 200 mm

Available Colors: Red, Green

LED 300 RYG + INBUILT COUNTER

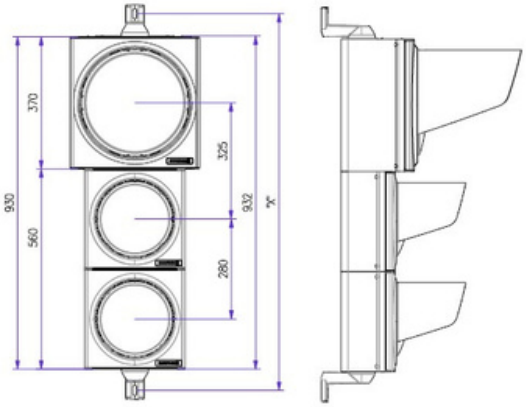

High efficient RYG signal head featuring 300 mm with inbuilt countdoown timer three colour. It is designed to meet high standards of efficiency and durability.

Material: UV-stabilized poly carbonate to withstand mechanical stress and adverse weather.

Dimension:

Available Colors: Red Yellow Green

Dimension "X"	2K	3K
PC 70	767 +/- 12	1047 +/- 11
PC 175	783 +/-5	1063 +/- 5
Alu 105	774 +/- 15	1054 +/- 15
Alu 183	774 +/- 15	1054 +/- 15
Alu 240	774 +/- 15	1054 +/- 15

SMART PEDESTRIAN

The smart pedestrian utilizes the physical pedestrian crossings, improving the way of crossing through smart technology. This is more suitable in towns, cities and schools. Global Suntech is a leader in implementing this technology.

Material:	UV-stabilized poly-carbonate
Dimension:	100 , 200, 300mm; and combination
LED Colors:	Red Green

INTELLIGENT TRAFFIC CONTROLLER

Supplied in partnership with Swarco Technology, Denmark. It has inbuilt algorithms and protocols that interface with traffic management software worldwide, including SCATS, SCOOT, NTCIP, Omnia, RSMP, STREAMS, CCOL and many others

Material: Varying

Dimension:

Available Colors: Natural Wood, White, Black

WHAT THE CONTROLLER DOES

- Control Room Access to all junctions from a central location.
- Remote Monitoring and Control - accessible through web-based platform .
- Real-time adaptive control and city wide coordination

Material: Hot dip galvanised, mild steel

Dimension:

Available Colors: SIlver, Black, Orange

SW 200 ITG NETWORKING CONTROLLER

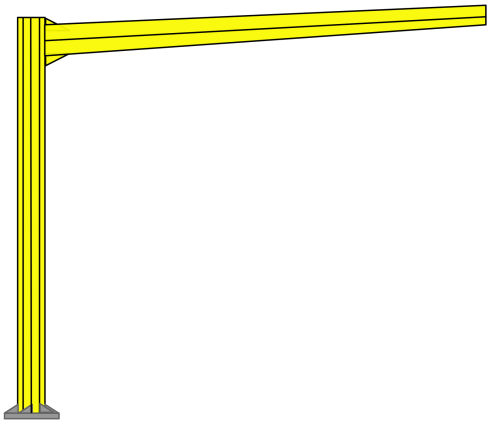

This is an intelligent wetworking controller under partnership with Chinese company. The controller is a 48-output intelligent with 32 bit ARM microprocessor 6 U modular control and drive. It has a 19-inch rack-mounted case, and uses standardized NTCP communication protocol and supports network remote control and various control strategies.

Material:

Dimension:

Available Colors: White, Light Oak, Walnut

OVERHEAD POLES

We do standard tubular and octagonal poles. The design is performed utilizing computer software to analyze pole shaft, cantilever arm, base plates. All poles receive final yellow at site

Material: V.

Dimension:

Available Colors: SIlver Yellow

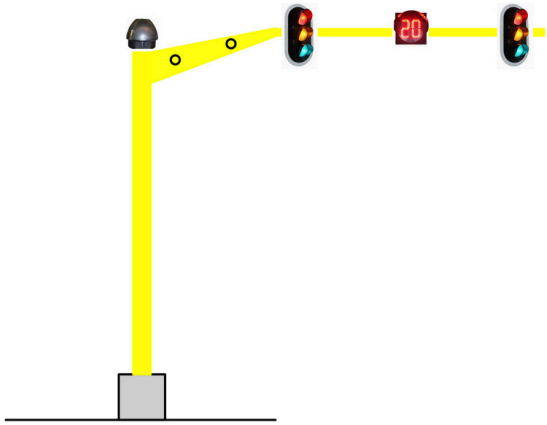

OVERHEAD POLE

We do standard tubular and octagonal poles. The design is performed utilizing computer software to analyze pole shaft, cantilever arm, base plates. All poles receive final yellow at site

Material:

Dimension:

Available Colors: Yellow Silver

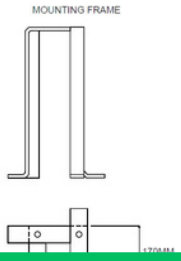

STANDARD POLE WITH FRAME

We do standard poles 110 mm diameter tubular with height of 3.3m to 4m. The poles are hot dip galvanized.

Material: mild steel

Dimension: 110mm diameter, 3.3m

Available Colors: Yellow Silver

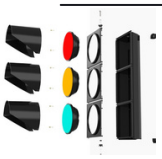

ACCESSORIES

We sell a wide range of accessories in solar, electrical and traffic signals. Our services go beyond selling but to supplying.

TRAFFIC SIGNAL ACCESSORIES

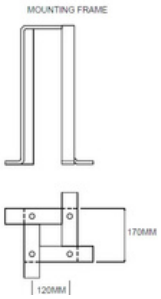

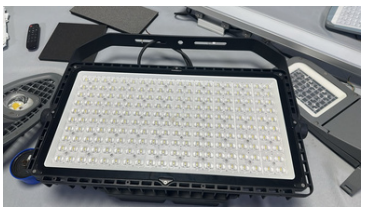

ELECTRICAL & SOLAR

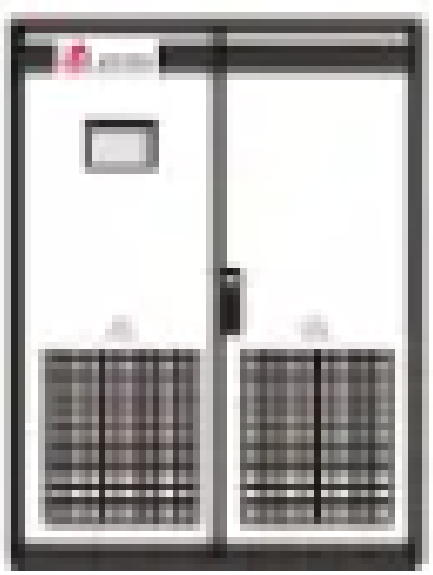

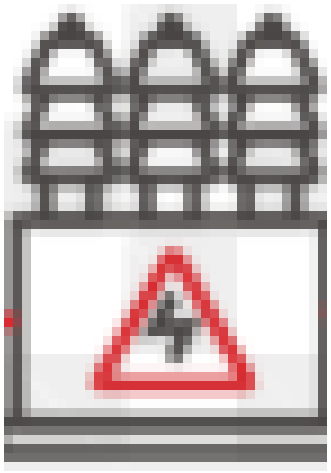

INVERTER SYSTEMS

We supply and install a wide range of high quality inverters and PCS systems for both grid connected and off-grid systems. Our brands include: ATESS, Sunsynk, Victron, Deye, Solis, Sigenergy and many more

PCS SYSTEMS

HYBRID INVERTERS

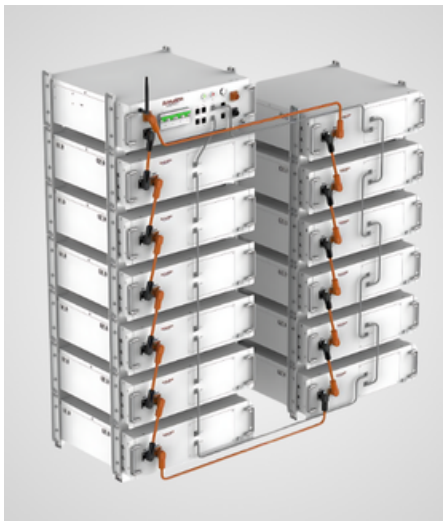

ENERGY STORAGE SYSTEMS

We supply and install a wide range of high quality battery storage for domestic, industrial and commercial systems. Our brands include: Freedom Won, Sunsynk, Shoto, Dyness, Hubble, Deye, and many more

HV AND HV+ STORAGE

LV STORAGE BATTERIES

ELECTRICAL SYSTEMS

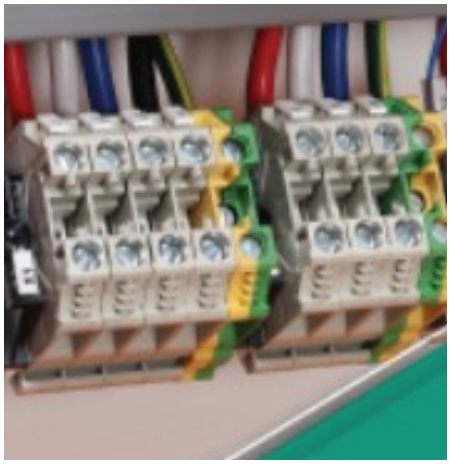

We do supply a wide range of electrial equipment, accessories and services to cater for industrial and domestic clients.

POWER & DISTRIBUTION

SWITCHGEAR

LED LIGHTS

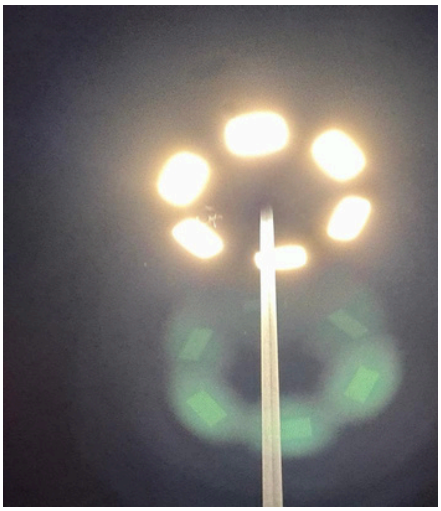

LED street lights have a lifespan of up to 50,000 hours, which is much longer than the lifespan of HPS street lights. This means that LED street lights require less maintenance and replacement, which can further save municipalities money

TOWER LIGHTS

STREETLIGHTS

GLOBAL SUNTECH
